Leaf Facts Scavenger Hunt Mission

Salaam Alaykum,

My name is Asad and I am the gardener for the Nahjul Balagha Forest. In Nahjul Balagha Forest there were trees with leaves that had facts about Nahjul Balagha. One day a big storm came and blew away all the facts about Nahjul Balagha from the leaves. Your task:

- 1) Participate in the webinars and place the facts about Nahjul Balagha back on the leaves. Every week you will receive a tree that will need the leaves to be filled in based on the information in the course for that week. Print out the page and fill out the page throughout the webinar.
- 2) After you have completed the weekly challenge visit the link at the bottom of the pages to submit your answers (by **Wednesday** before the next webinar session along with your name or code name). If you successfully completed the challenge your name will be displayed on the **mission champions** board shown on the upcoming class.

Don't forget to be creative and decorate the leaves on the tree after you fill in the information.
